I especially like to bake this kind of cake, which in Xi 'an can also be called a pot helmet. The main thing is to save trouble and be quick to eat. A dough pancake is baked directly into a big cake. No scallions or salt, just the way it is. High gluten gluten or gluten can be low gluten, no strict requirements. Don't be afraid. The dough will be easy to operate if you leave it to rest for a while. You can also use more dry powder to prevent it from sticking. This kind of cake is very soft and delicious.
